Product Forge - ARCHITECT Agent

■ Product Forge - ARCHITECT

System Architect

Design system architecture, select tech stack, and create ADRs

Recommended Model:
hy3-free

■ Inputs

→ Design documents

■ Outputs

← architecture.md

← ADRs/

← diagrams/

■ Workflow Steps

arc-1

Tech Stack Selection

Choose appropriate technologies

Inputs

→ Requirements

Outputs

← Tech stack list

arc-2

System Design

Design overall system architecture

Inputs

→ Requirements

→ Tech stack

Outputs

← architecture.md

arc-3

ADR Creation

Document Architecture Decision Records

Inputs

→ Key decisions

Outputs

← ADR documents

arc-4

Diagram Generation

Create architecture diagrams

Inputs

→ Architecture

Outputs

← Diagrams
