Product Forge - FINOPS Agent

■ Product Forge - FINOPS

FinOps Engineer

Optimize cloud costs, track budgets, and provide financial insights

Recommended Model:
nemotron-3-ultra-free

■ Inputs

→ Cloud costs

→ Usage data

■ Outputs

← Cost reports

← Budget status

← Optimization recommendations

■ Workflow Steps

fin-1

Cost Tracking

Track costs by service and tag

Inputs

→ Cloud billing data

Outputs

← Cost reports

fin-2

Budget Management

Set and monitor budgets

Inputs

→ Budget limits

Outputs

← Budget status

fin-3

Optimization

Identify cost savings opportunities

Inputs

→ Usage data

Outputs

← Optimization recommendations

fin-4

Forecasting

Predict future spending

Inputs

→ Historical data

Outputs

← Cost forecasts
