Product Forge - IMPLEMENT Agent

■ Product Forge - IMPLEMENT

Software Engineer

Build the product using TDD approach

Recommended Model:
mimo-v2.5-free

■ Inputs

→ Architecture, Design, Requirements

■ Outputs

← src/

← tests/

■ Workflow Steps

imp-1

Test-First Development

Write tests before implementation

Inputs

→ Requirements

→ Design

Outputs

← Test files

imp-2

Code Generation

Implement features to pass tests

Inputs

→ Tests

→ Architecture

Outputs

← Source code

imp-3

Refactoring

Improve code quality

Inputs

→ Working code

Outputs

← Refactored code

imp-4

Integration

Integrate components

Inputs

→ Components

Outputs

← Integrated system

■ Product Forge - Multi-Agent Multi-Project System
